

Purchase the cloud services you need and only for as long as you need them.

## Public Cloud Services

ChimeNet provides businesses and organizations with both managed and unmanaged public cloud services. Because of our long-standing partnership with Ingram Micro, a global technology leader, we can now provide a full suite of competitively priced cloud services to our customers.

- Amazon Web Services (AWS). A secure cloud services platform, offering compute power, database storage, content delivery and other functionality to help businesses scale and grow.
- AWS Cloud Support contracts. Do you have AWS services and not sure where to go for various levels of support? We can help with service contract option suited for every budget.
- Microsoft Azure. A growing collection of integrated cloud services—analytics, computing, database, mobile, networking, storage, and web—for moving faster, achieving more, and saving money.
- Microsoft O365. Work anywhere, anytime on any device. Office 365 provides a complete set of tools to increase productivity and collaboration, whether you are working in the office or remotely.
