

ChimeNet is a premium **Managed Services Provider (MSP)** with a successful track record of designing, implementing, securing and supporting wired and wireless networks of all sizes.

Managed IT Solutions

For more than a decade, ChimeNet has been an authorized Cisco and Meraki Value-Added Reseller offering network design services, hardware, software, and licensing procurement. ChimeNet has extensive experience in managing Cisco SmartNet contracts for clients. And, if there are budget constraints, ChimeNet can provide fully certified Cisco OEM refurbished hardware. ChimeNet's trained, certified staff is available to assist with any managed IT support requirements.

ChimeNet Managed IT Services include:

- Design, build and support LAN / WAN wired and wireless networks
- Assist with co-location, disaster recovery, and cloud initiatives
- Provide fully Managed Firewall security services that meet your specific needs
- Provide proven expertise in Cisco Firepower technologies
- Deliver Managed VPN solutions for remote sites, trusted partners and telecommuters
- Provide verified and documented predictive and physical wireless site surveys
- Assist with data, voice, and coax cabling projects
